-

PROFESSIONAL EXPERIENCE

Ecommerce Operations Specialist

Independent Ecommerce Business | Indonesia
2020 – Present

- Managed end-to-end ecommerce operations across multiple brands and marketplaces, overseeing **2,000+ SKUs** throughout their product lifecycle.
- Coordinated approximately **50,000+ customer orders**, ensuring smooth order processing, fulfillment, returns, and customer support operations.
- Planned, executed, and monitored **300+ marketplace campaigns**, including flash sales, double-date campaigns, vouchers, promotional pricing, and seasonal events.
- Optimized product listings through keyword research, SEO-friendly titles, product descriptions, attributes, and visual improvements to increase product visibility and click-through rates.
- Managed Shopee Ads and marketplace promotional activities while monitoring sales performance, profitability, and campaign effectiveness.
- Designed and maintained Google Sheets dashboards for sales tracking, inventory monitoring, operational reporting, KPI monitoring, scheduling, and profitability analysis.
- Developed **100+ Standard Operating Procedures (SOPs)** covering ecommerce operations, customer service, fulfillment, inventory management, quality control, HR processes, and daily business workflows.
- Designed KPI frameworks, operational checklists, and performance review systems to improve accountability and consistency across business operations.
- Coordinated cross-functional collaboration involving customer service, administration, creative content, inventory, and fulfillment teams to maintain efficient day-to-day operations.
- Built AI-assisted workflows using ChatGPT, Codex, and Gemini for business documentation, SOP creation, reporting, data analysis, customer response templates, SEO optimization, and recurring operational tasks.
- Continuously analyzed marketplace performance, customer behavior, operational bottlenecks, and business processes to identify improvement opportunities and increase operational efficiency.

Key Achievements

- Grew a low-activity reseller business to achieve **200%+ year-over-year sales growth** through listing optimization, marketplace campaigns, and store presentation improvements.
- Successfully managed **2,000+ SKUs** across multiple ecommerce brands and marketplaces.
- Coordinated approximately **50,000+ customer orders** while maintaining structured fulfillment and customer support workflows.
- Developed and implemented **100+ SOPs** to standardize ecommerce operations, reduce operational errors, and improve business scalability.
- Executed **300+ marketplace campaigns** across multiple ecommerce platforms.
- Built reusable operational dashboards, reporting templates, and AI-powered workflows that significantly reduced repetitive administrative work and improved decision-making.

PROFESSIONAL PROJECTS

Marketplace Operations System Development (2023–2026)

Designed and implemented standardized operational systems covering SOPs, KPI frameworks, dashboards, fulfillment workflows, and customer service processes to improve operational consistency and scalability.

HelloBare Marketplace Expansion (2026)

Led product catalog preparation and marketplace optimization for Zalora, including SEO product listings, product attributes, size charts, pricing, and marketplace compliance.

NA-IVE Brand Launch (2026)

Built a new leather goods brand from concept to launch, including product strategy, pricing, marketplace operations, SOP development, fulfillment workflow, and risk mitigation processes.

AI Workflow Integration (2025–2026)

Integrated ChatGPT, Codex, and Gemini into daily business operations to streamline SOP creation, documentation, reporting, operational analysis, marketplace optimization, and repetitive administrative tasks.
